

Create your Healthcare Professional ID

Follow these simple steps to start your ID and complete your doctor profile. Keep your applicant documents and phone with you.

Start here

Open the official National Health Professional Registry portal. This button takes you to the ID creation page.

Open the NHPR ID creation portal ↗

Official link: <https://nhpr.abdm.gov.in/nhpr/v4/createID>

Before you begin: Have your AADHAAR number and the mobile phone linked to it. You need these for setup and again for self-verification at the end. Also keep your medical council registration certificate and MBBS degree certificate ready. If your work status is Government or Both, prepare an employment proof document too.

1

Choose how to verify your identity

Select **Aadhaar** or **Driving License** on the portal. Follow the instructions shown for your choice.

If you choose Aadhaar

Enter your Aadhaar number or Virtual ID on the official portal. Read the consent notice carefully. Continue only if you agree to the stated use of your identity details.

If you choose Driving License

Enter your full name, date of birth, gender and driving licence details, then upload a clear licence copy. The portal allows PDF, PNG, JPG or JPEG files up to 5 MB.

Complete any on-screen identity check or CAPTCHA yourself. Keep your linked mobile phone nearby for verification.

2 Follow the verification instructions

Press the portal's **Submit** button when your identity details are ready. Follow the next on-screen step. If the portal sends a code to your AADHAAR-linked mobile, enter it yourself and do not share it with anyone.

3 Choose your healthcare role

If asked, choose **Healthcare Professional** for a doctor. Choose the combined healthcare professional and facility manager role only if you also need to register or manage a facility.

Already have an HP ID?

Use **Login / Registration** and sign in to your existing account instead of creating another ID.

4 Complete Personal Details

Check your title, name, nationality and languages. Confirm the KYC address. Say whether your communication address is the same; if not, fill the address fields the portal displays.

5 Add Qualifications & Registration Details

Enter your medical council, registration number, first-registration date and whether the registration is permanent or a renewal. Add the expiry date for a renewal.

Enter your MBBS qualification, country, state, college, university and passing year. Add any other qualification in a separate block.

Upload the latest council registration certificate and your degree certificate. If a name on either certificate differs from AADHAAR, answer honestly and provide the name-change document requested by the portal.

The observed portal limit is 5 MB per file; it accepts PDF, PNG, JPG and JPEG. Check the live portal in case its requirements have changed.

6 Complete Work Details

Say whether you are currently working. If not, choose the reason shown. If yes, select your nature of work and work status.

If your work status is Government or Both

Choose Central or State. Complete the ministry and PSU questions if they appear, and upload the requested proof of government employment.

Search for your workplace by name and choose its state and district, or search by Facility ID. Select the correct facility and make sure it appears in the declared workplace list.

Typing a facility name into search is not the same as declaring it. Teleconsultation URL is optional.

7 Review your profile and public-display choices

Check the personal, qualification and work details in the preview. Decide whether to show your details publicly and review each optional display setting. You may add an optional About paragraph of up to 500 characters.

Answer the assistance question truthfully. Correct any errors before continuing.

Final check: the applicant must do this

Read the declaration and confirm every detail is true and complete. Accept it only if you agree. Complete AADHAAR self-verification on your linked mobile, then personally complete the portal's e-sign and final submission steps.

After submission, check the status shown by the portal. **Verification Pending** means review is still in progress; it does not mean the ID has been approved.

If a screen looks different, follow the current portal instructions or contact NHPR support at **1800-11-4477 / 14477**. Do not guess at a field or choose an answer that is not true for you.

Plain-language guide to the observed Indian doctor / MBBS registration flow. Account verification and some portal steps may change; follow the current screen.

WHAT TO EXPECT AT THE END

Example of the e-signed declaration

This example is taken from the supplied HP-ID PDF. Applicant details and signature information are covered; declaration headings and field labels remain visible.

Facility Details:

<div></div> <div>Facility</div>	Facility ID	Facility Status	<div></div>	Address	State	District	Type	<div></div> <div></div>	<div></div> <div></div>	Status
---------------------------------	-------------	-----------------	-------------	---------	-------	----------	------	-------------------------	-------------------------	--------

Declaration

I hereby declare that I am voluntarily sharing above mentioned particulars and information. I certify that the above information furnished by me is true, complete, and correct to the best of my knowledge. I understand that in the event
